

Section III:
AMENDMENT UNDER 37 CFR §1.121 to the
DRAWINGS

In Figure 3, applicant(s) has deleted the reference number "31" from association with the interprocess connector element "B", as approved by the examiner.

Section IV:**AMENDMENT UNDER 37 CFR §1.121****REMARKS****Summary of Telephone Interview with Examiner**

On August 3, 2005, examiner initiated a telephone interview with applicants agent, Robert H. Frantz, in order to propose an examiner's amendment to delete reference number "31" in Figure 3; to propose amendments to the claims to remove a double-word typographical error "at at" in claims 1, 10, and 19; and to insert the application serial number 09/710,926 into the related applications and incorporation by reference statements, which would place the application in a condition for allowance. Applicant's agent agreed to the examiner's amendment.

Amendment After Allowance

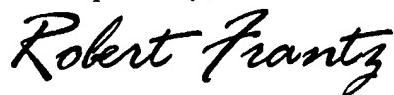

Upon receipt of the Office Action and review of the Examiner's Amendment, it has been noticed that the insertion of the application serial number in the incorporation by reference statement contains a typographical error. It reads "09/710,921", instead of "09/710,926". For this reason, applicant requests entry of the current amendment prior to issuance of the patent.

Replacement Figures

A letter addressed to the Chief Draftsman and a replacement sheet for Sheet 3 of the figures is enclosed herewith, with the reference number "31" removed.

Applicant requests entry of the amendment, approval of the replacement drawing sheets, and allowance of the claims for the foregoing reasons.

Respectfully,

A handwritten signature in black ink that appears to read "Robert Frantz".

Agent for Applicant(s)
Robert H. Frantz, Reg. No. 42,553
